

DAN MATHIESON

Technical Solutions Architect | Production AI Engineering | Enterprise Healthcare

danny.mathieson233@gmail.com | danielmathieson.com | linkedin.com/in/daniel-mathieson | San Francisco, CA

PROFESSIONAL SUMMARY

Solutions architect, PM, and production AI engineer in one: managed **\$31.8M in active healthcare pipeline** and shipped **943 commits** simultaneously at Smarter Technologies, and delivered **63% of net new ARR** at Thoughtful AI during a 3x growth year by holding all three functions on the same accounts.

EXPERIENCE

Solutions Architect / Customer Engineer / Lead TPM / VP of Solutions

2023 – Present

Thoughtful AI (acq. New Mountain Capital) → Smarter Technologies → AccessHealthcare | San Francisco, CA

Started as SA at Thoughtful AI, expanded into Customer Engineer and then Lead TPM as no single role captured the full scope; promoted to Director, Solutions Engineering at the Smarter Technologies merger when the sales org requested full-time field coverage; retained as one of ~15% post-shutdown and promoted to VP, Solutions at AccessHealthcare.

Production AI Engineering

- Built Thoughtful's first production GenAI system: **hybrid-RAG eligibility verification** using OpenAI embeddings and in-context learning, achieving **95% accuracy within 2 days** on live billing workflows; approach replicated across 3 additional automations within a month
- Built **eval infrastructure for every AI system**: labeled holdout datasets, precision/recall tracking by failure category, regression test suites that ran before every model or prompt change
- Architected a **22-skill, 5-agent Claude Code platform** with pre/post tool-use hooks and 57 Python integration scripts; deployed org-wide via Cowork with **93% tool approval rating** in the first 3 weeks; shipped **943 commits and 500+ PRs** while simultaneously running \$31.8M in live pipeline
- Wrote **custom Python pipelines per customer deployment** pulling agent execution logs from S3, parsing nested JSON into QuickSight dashboards; productized into the customer portal via iFrame embedding and shipped as a core product feature

Technical Delivery & Program Management

- Directed **1-3 FDEs across up to 18 concurrent customer deployments** as Lead TPM: assigned work, unblocked engineers technically, owned customer relationships, and translated accuracy milestones and build progress into business outcomes throughout
- Developed **MAP (Master Automation Plan) delivery methodology**: 8-20 hour SOP capture sessions with customers, pseudo-code decision-tree specs engineers built directly from, customer-signed definition of done before any code written, personal test plan execution before every production sign-off
- Delivered **63% of company net new ARR** during Thoughtful's 3x growth year by owning the full cycle from scoping through production sign-off
- Stabilized 3x standard implementation load of struggling accounts during a critical growth phase, preventing customer departures through transparent recovery plans and rebuilt stakeholder trust

Customer-Facing Technical Advisory

- 96% of prospects converted to proposal within a month** as the primary pre-sales technical advisor at Thoughtful AI; brought into every large opportunity by the CEO and CPO after pre-sales analytics work changed what was possible in enterprise sales conversations
- Served as primary **HIPAA, BAA, SOC 2, and data residency** point of contact for IT security teams across all active enterprise accounts; delivered live technical architecture walkthroughs to CISOs and IT security leadership as gatekeeping decisions for deal advancement

SMARTER TECH (LAST 7 MO)

\$31.8M

Active pipeline managed

943

Commits shipped while running \$31.8M pipeline

93%

Cowork tool approval rating (first 3 weeks)

THOUGHTFUL AI (2023-2025)

63%

Net new ARR contribution during 3x growth year

96%

Pre-sales pass-through rate to proposal

95%

Hybrid-RAG accuracy in production (2 days)

TECHNICAL SKILLS

Agentic AI

Claude Agent SDK, Claude Code, MCP, Multi-Agent Pipelines, Tool Use Hooks, Eval Engineering, RAG/pgvector, Prompt Engineering

Languages & Data

Python, SQL (PostgreSQL, Redshift, GoogleSQL), TypeScript, pandas, Jupyter, S3

Healthcare

HIPAA, BAA, FHIR, EDI/HL7 (270/271/835), 12+ EMR platforms, RCM workflows

Delivery

MAP Methodology, SOP Capture, PRD Authoring, FDE Team Direction, Change Management

Infrastructure

Git, GitHub Actions, AWS (QuickSight, S3), Docker, Next.js, Make/Integromat

EARLIER EXPERIENCE

Senior Director, Data Science & Analytics

02/2021 – 10/2022

Action Network (acq. Better Collective) | Remote

- Led 4 analysts and 3 engineers building Airflow-orchestrated data pipelines on Redshift; architected the "Value Clicks" north star metric correlating content to affiliate conversion, driving **70%+ YoY revenue growth** and **225%+ YoY improvement in revenue per mobile user**
- Built affiliate LTV financial models evaluating revenue-share deals worth \$500K-\$2M/year, presenting directly to CFO with cohort retention, loss rate, and state-level tax modeling

Revenue Analyst, G-Suite Finance

01/2020 – 02/2021

Google | Sunnyvale, CA

- Built P&L reporting suite in GoogleSQL covering **500M+ SaaS users**; improved top-line forecast accuracy by **7%** using Google AI/ML tooling; automated forecast cube generation via Google Apps Script and SAP integration

Manager, Revenue & Forecasting

08/2016 – 12/2019

FanDuel | New York, NY

- Built entire revenue reporting infrastructure on Redshift; built a **Markov Chain Monte Carlo simulation** forecasting season revenue to within **2% error** across 17 user segments; built a Python Slackbot reducing manual reporting by 40%

EDUCATION

B.S. Electrical & Computer Engineering, Bucknell University

08/2012 – 05/2016

AI & Machine Learning Professional Certificate, CalTech / SimpliLearn

10/2022 – 04/2023
